**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 07, 2007 has been entered.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Pulkkinen et al (US Patent No. 6,694,141 B1). Hereinafter, referred to as Pulkkinen.

With respect to claim 1, Pulkkinen discloses a method of assigning radio channels to a set of base stations in wireless network (Fig. 3), comprising:

determining a set of radio channels to include all radio channels which said set of base stations have at their disposal for communication (col. 3, lines 5-7 and Fig. 3, channel numbers 1, 2, and 3 are available for transceivers at the factory), and

assigning a radio channel to each base station during manufacture of the base stations, wherein each radio channel is assigned substantially an equal number of times as the other radio channels of said determined set of radio channels (col. 3, lines 7-12 and Fig. 3, transceivers in the sites 21 and 22 are configured at the factory to transmit on channel 1. Transceivers in the sites 25 and 26 are configured to transmit on channel 2 and in the sites 23 and 24, channel 3 has been preset at the factory. Herein, each channel is assigned an equal number of times, which is 2 in this particular application, as each of the other radio channels in the set of determined channels).

***Allowable Subject Matter***

3. Claims 2-5 are allowed..

***Response to Arguments***

4. Applicant's arguments with respect to claims 1-5 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***
